NEW CLAMP TYPE
JUNCTION BOX TERMINALS
Lever Type Junction Box Terminals Suitable for All Conductors

- An innovative solution, developed for faster and safer electrical installations.
- 2, 3 and 5 connector options.
- Ergonomic structure and easy-opening levers help for rapid installations, especially for fine stranded conductors.
- No need to open the lever to install solid conductors, simply push the conductor into the terminal.
- Transparent casing provides a clear view to see the connections, test slots enable easy measurements.

Dual-side Test Slots
Properly Inserted Wire
Properly Stripped Wire
Suitable for All Conductor Types
- AWG 24 - 12 solid, stranded, flexible
- 0.14 - 4 mm² “f-st”
- 0.2 - 4 mm² “s + st”

### MOUNTING

- Open the lever and insert the properly stripped wire into the terminal.
- Make sure the connection is done properly by checking through the transparent casing, then close the lever.
- You can install solid wires without opening the lever.

- **Nominal Current**: 32 A
- **Nominal Voltage**: 450 V
- **Operating Temperature**: 105 °C
