

CB 144 SERIES TRANSPARENT COVER

CB 144 Transparent Cover provides safe and easy solutions for panels to isolate main-in terminals or isolate and **seal** test-disconnect terminals.

Sold in 144 mm width and 1 meter length standard size, cut in desired length and mounted with specially designed **CB 144 stoppers**.

Group **marking** can be made with **strip labels** for the terminals by using the area provided on the cover.
